EPG'S SOLAR ARRAY INSPECTION, VERIFICATION AND MAINTENANCE

EPG Electric offers a service inspection that aids Buyers, Sellers, Agents and Brokers in making them comfortable about buying or selling a home. The ability for a buyer to make an educated decision on a particular property will save time on closing and eliminate doubt on the purchaser's side.

A maintenance service package can:

- Reduce or eliminate downtime
- Ensure all your system components are functioning optimally
- Highlight issues before they become a problem
- Ensure you are generating income at the arrays capacity
- Increase the efficiency of your solar array
